WASHINGTON CITY

Piper's Anti-Chinese Immigration Bill Passed.

WASHINGTON, June 10.—The bill reported from the judiciary committee and passed by the House to-day, concerning immigration, is Representative Piper's bill to enforce the strict enforcement of the Page law of last year relative to coolie and Chinese women imported for immoral purposes. In addition to present requirements, it prescribes the penalties of fine and imprisonment against any collector of customs who neglects or refuses to execute the law when cases covered by it are brought specially to his attention by the affidavits of any two citizens alleging information, belief, etc.

Bill to Regulate Elections in Territories.

The House committee on Territories have authorized Wigginton to report for passage at the first opportunity a bill to regulate elections in Territories. It limits the elective franchise to male citizens of twenty one years, or upwards, who are not bigamists, or polygamists, as they respectively offer to vote. The bill in the main is a copy of the California State election law. All ballots are however to be enclosed in envelopes of one form and size to be furnished by the territorial secretary. This measure will be reported as a substitute for the bill introduced by Cutrell which is a copy of Senator Christiancy's bill to regulate the elective franchise in Utah. It will be observed that the substitute differs from Christiancy's measure in a very important particular and is not retroactive in its requirements concerning polygamists.

Private Bills.

A majority of the House private land claims committee have reported adversely on Wigginton's bill to authorize the correction of the boundaries of the Pulgar rancho, San Mateo county, California. The minority report recommends the passage of the bill. Both reports were placed on the private calendar.

The Senate private lands committee base their adverse report on Booth's bill for adjudication of title to La Joya rancho, claimed by Jose and Pablo Apis, on the ground that no evidence as to the existence of the grant has been presented to the committee, and that the passage of this bill would become a precedent for all others in which minors might be parties, and thus open the door for extended litigation and disturbance for titles long considered settled.

Contemplated Change in the Device of "Liberty" on Coins.

The director of the mint has for some time past been arranging for an improvement in the devices on coinage. The principal change will be the substitution of a classic head of Liberty in place of the sitting figure on the obverse side.

Called on the President.

Among the calls on the President to-day was ex-Gov. Bullock, of Georgia.

The Silver Coinage Bill Just Passed.

WASHINGTON, June 10.—The bill which passed the House to-day, authorizing the issue by the Treasury of $10,000,000, is as follows: That the Secretary of the Treasury, under such limits and regulations as will best secure a just and fair distribution throughout the country, may issue the silver coin now in the Treasury to an amount not to exceed $10,000,000, in exchange for an equal amount of legal tender notes, and that the notes so derived in exchange shall be kept as a special fund, separate and apart from all other money in the treasury, and be issued only upon the retirement and destruction of a like sum of fractional currency, and when so substituted shall be destroyed and held as part of sinking fund, as provided in the act approved April 17, 1876. In reporting the bill, Cox presented the following statement of the amount of silver issued up to date. For the redemption of fractional currency, $5,144,385; for the payment of currency obligations, $4,352,851; total, $8,497,169; amount on hand, with assistant treasurers, etc., $5,011,191; ordered from United States mints to assistant treasurers and depositories, $1,230,800.

Section 2. That the silver bullion required for this purpose shall be purchased from time to time at the market rate by the Secretary of the Treasury with any money in the treasury not otherwise appropriated, and resulting coin may be issued in ordinary disbursements of the Treasury; but no purchase of bullion shall be made under these acts when the market rate for the same shall be such and will not admit of coinage issue, as herein provided, without loss to the Treasury and any gain or seigniorage arising from this coinage shall be accounted for and paid into the Treasury as provided under existing laws relative to subsidiary coinage, provided that the amount of money at any one time invested in such silver bullion, exclusive of such resulting coin, shall not exceed $1,000,000.

Section 3. That trade dollars shall not hereafter be legal tender, and the Secretary of the Treasury is hereby authorized to limit from time to time the coinage thereof to such an amount as he may deem sufficient to meet export demand for the same.

The Randall bill, which also passed the House to-day, provides that in addition to the amount of subsidiary coin authorized by law to be issued in redemption of fractional currency, it shall be lawful to manufacture at the several mints, and issue to the treasury and its several offices, such coin to the amount of $2,000,000.

Kerr's Condition Dangerous.

Kerr's condition is very threatening. He is very weak, and breathes with great difficulty. A consultation of physicians was held to-night, who regarded his case as one of little hope. It is feared that he may not survive another week.

Speaker Kerr Improving.

Speaker Kerr is in an easier condition to-night than he was this morning, and his friends hope that he will in a few days have recovered sufficiently to be removed to the country. They, however do not think he will ever again occupy the speaker's chair.

Bill to Break up Straw Bidding.

The bill reported from the postal committee by Tuttle and passed by the House with the expectation of entirely breaking up the straw bidding system, embodies the experience and best judgment of both the committee and Postoffice department. It requires bidders and their sureties to make oath on their bonds that they respectively own real estate worth double the amount of the bond, and also, under oath, to answer prescribed interrogatives as to the location, etc., of their property. The bill provides that in case an accepted bidder fails to commence service, the department may alter the contract with the next lowest bidder who will take it, or may readvertise the route. In case of the contractor's failing, the Postmaster-General may either accept the next lowest bid or if he considers it too high, he may go outside the list and contract with any person willing to perform the service at such price as may be considered reasonable, giving preference, however, to bidders on the list against outside parties. Temporary contracts, without advertisement, are to be limited to six months and to a price not exceeding those usually paid for regular service. The bill prescribes penalties of fines not exceeding $5,000 and imprisonment of not more than twelve months for wrongful refusal or failure of accepted bidders to enter into contracts or to refuse to perform service after contracts are awarded.

Investigation of Kerr.

WASHINGTON, June 10.—Wm. Fly Shanks testified before the Kerr investigating committee to-day that he had an interview with Harney with regard to the alleged payment of $1,500 to Kerr and that Harney said to him, I have never said there was any money in the matter. Representatives Clymer, Blackburn and Danford have agreed to report fully vindicating Kerr from the charges made against him by Harney. Robbins and Baisnre the only other members of the committee absent from the city, but their colleagues entertain no doubt whatever of their concurrence in this finding. The case will probably not be formally closed until their return.

Amendments to the Army Bill.

WASHINGTON, June 10.—The House committee on appropriations amended the army bill this morning by adding $[illegible] dollars to the salary of brigadier generals, thus restoring it to its present status. An additional section was also added to the bill which provides that the President shall from time to time, designate five officers who shall examine into all complaints, charges, etc., against officers in the army, and report thereon, providing that no officer whose rank or promotion shall be affected by the action of such board shall be a member of it, and two of said board shall be of a rank higher than the officer whose conduct may be under investigation.

Indian Appropriation Bill.

The Indian appropriation bill finally amended, and passed by the House provides the following amounts for incidental expenses of service: In California, $30,000; Oregon, $10,000; Washington Territory, $5,000; Nevada, $4,000; Idaho, $4,000; Montana, $5,000; Utah, $10,000; New Mexico, $10,000; Arizona, $20,000. No portion of these amounts can be paid to employees, the bill providing that they shall hereafter be detailed or appointed and paid by the War Department. Delegate Elkins made an earnest effort to secure an increased appropriation for the care and sustenance of the Apaches in Arizona and New Mexico, but the House voted only the [illegible] recommended by the appropriation committee. On motion of Maginnis the Montana provision was inserted to break up the power which the Indian agents now possess of controlling trade with Indians. The amendment provides that any person who receives a certificate from a U. S. district judge or Territorial supreme court judge that he is of good moral character and fitness to be in an Indian country, shall receive a trading license which he presents to the agent, which license shall be forthwith approved by the department when forwarded to Washington. A very spirited discussion arose on an amendment offered by Seelye of Massachusetts to appropriate $[illegible] for the support and civilization of Indians at Round Valley, Hoopa valley, Tule river and [illegible] in California. Luttrell opposed it as unnecessary and denounced the management of the reservations in his district as corrupt. He narrated charges against Agent Burchard, and in reply to a question by Page, whether Inspector Vandever had not exonerated Burchard after a full investigation, Luttrell intimated that Vandever had made a whitewashing report to please the department. This called out Seelye in an eulogy on Burchard, and Wilson of Iowa in defense of Vandever's character, which he warmly declared should not be assailed in his presence. The amendment was carried by a large majority.

Serious Illness of Blaine.

WASHINGTON, June 11.—This morning ex-Speaker Blaine left his residence in company with Mrs. Blaine and slowly walked to the Congregational Church which is about three-fourths of a mile from their home. Just as they reached the church he complained of severe pain in the head and dizziness, at the same time placing his hand upon it. On entering the vestibule he was so overcome with sudden illness that he came near falling, but this was prevented, and he was assisted to a seat on the steps, when he exclaimed "Oh this pain." A conveyance having been procured Mrs. Blaine returned with him home; in the [illegible] unconscious. A bed was brought into the front parlor on which he was laid and a messenger having been sent for Surgeon General Barnes and Drs. Bliss, Cox, Verdi and Pope they soon appeared and began cupping the spine and resorting to other counter irritants and remedies. From eleven in the morning until 4 o'clock in the afternoon, he laid unconscious, breathing irregularly. His wife, physicians and other friends remaining at his bedside. During that time the physicians said Blaine was suffering from over excitement of the brain and nervous system induced by the recent events in which he has taken a prominent actor, the symptoms being aggravated by the weather, which to day was very oppressive. Several weeks ago Blaine was confined to the House for some days by a low type of malarial fever but appeared before the sub-judiciary committee who were investigating the charges against him before he had fully recovered from the effects of that disease. This, with the excitement on his part both before the committee and in the House, and the large number of persons daily in conference with him and his attention to his extensive correspondence, including very many telegrams from all parts of the country, especially during the past week, loss of rest and other causes produced the strain upon his mind that caused his sudden illness to-day.

Bristow called at the house as soon as he heard of Blaine's illness, as did also Secretaries Fish, Robeson and Chandler, Postmaster General Jewell, Gen. Sherman, Senators Ferry and Paddock, Gen. Garfield and other gentlemen of prominence. The sympathy for Blaine was not confined to his political friends, many Democrats having called to inquire as to his condition and regretting his sudden illness. At about 4 P. M., Blaine's consciousness gradually returned, when he recognized his wife and inquired of her what was the matter, and she replied that he was ill, and after that he for the first time turned over in his bed unaided. His breathing now was better and his pulse stronger; the enema produced some effect, but not to the extent desired, and therefore the doctors applied electricity. They say the symptoms are favorable although he does not appear fully restored to consciousness. This evening one of them said in private conversation that the attack was clearly a case of sunstroke, or heat stroke, to which Blaine was rendered liable on account of his recent illness, overwork, excitement and loss of rest. The physician further said that at first he was apprehensive that the attack might be apoplectic, but examination disclosed no symptoms of that disease. For several hours numerous visitors were admitted but after the doctors had administered the enema, the rooms were cleared so that the patient might rest. Dr. G. W. Pope, an eminent practitioner of this city, who has been Blaine's family physician in Washington during the last eight or ten years, and is intimately acquainted with his constitution and temperament, furnished the following diagnosis of his condition at 7 o'clock this evening: Mr. Blaine's case is one of simple cerebral depression produced primarily by the action of excessive heat. There is no apoplectic congestion or effusion nor any symptoms of paralysis. He has free use of his limbs. The pupils of his eyes are normal. He has spoken several times and recognizes his family. He lies quietly, breathes naturally and is disposed to sleep. He has responded excellently to treatment, and I have every reason to anticipate a speedy and complete recovery. At 8:30 P. M., Dr. Bliss remarked that the patient's attack was yielding to treatment with remarkable rapidity. The following telegram was received by Mrs. Blaine this evening from Congressman Hale, at Cincinnati: "Great relief at the favorable news of Blaine's condition. Tell him that his cause has improved all day. Each State is coming in better than expected. No wonder he had a bad turn; the strain has been tremendous."

The Conference Committees.

The Senate to-day, in reconstructing the second committee on conference on the consular and diplomatic bill, indicate that the Senate will not yield to the demands of the House. When the disagreement report of the conference committee was made to the Senate, that body appointed a new committee and asked the House for a second conference. The House appointed upon the second committee the members who constituted the first, thus indicating its purpose to adhere to its position on the bill. When the Senate was apprised of this unwavering action, the members of the second conference committee resigned, and to-day the same members were appointed.

BLAINE INVESTIGATION.

The sub-judiciary committee at half past two o'clock, continued the investigation into the connection of ex-Speaker Blaine with the Kansas Pacific Railroad. J. B. Stewart took the stand, but before testifying, Lawrence, in behalf of Blaine, said as his colleagues Frye and Hale, who had been aiding him during the investigation, were both absent from the city, it would be desirable to him to have the case postponed for two or three days. The committee then after consultation, decided to postpone the case until Monday. Hunton then said Mr. Blaine, the committee desires me to again request the production of the letters taken from Mulligan.

Blaine—You know the grounds on which I claim possession of them, Mr. Chairman.

Hunton—Yes, sir.

Blaine—I have not changed my mind, Mr. Chairman.

Lawrence said he understood that only one of the letters had any connection with the case, and even Mulligan did not claim that any others alluded to bonds. He insisted to be understood as non concurring in the request of the committee for the letters.

Blaine said, I am glad Judge Lawrence non-concurs, and that it is only the majority of the committee that ask for the letters.

Hunton—The committee also request me to ask you to produce the memorandum accompanying the letters.

Blaine—I have the same reason against producing that as I have against producing the letters.

Hunton—Then I understand you to decline to give them up?

Blaine—Yes, sir.

Ashe said the other day he had stated that he knew nothing about the Caldwell dispatch till he heard Blaine allude to it on the floor of the House. He now wished to add to that statement that, in making it, he intended no reflection on his colleague of the committee, Knott.

Blaine said he had offered to produce the only letter that the witness, Mulligan, swore had any bearing on the case, and if the committee would make a request, specifying the letter which bore on the case, he would produce it.

Hunton—Without waiving the request for the whole of the letters, I now ask the production of the letter alluded to by Mulligan, and also the memorandum prepared by Mulligan.

Blaine—If you make that request on the general principle that you have a right to demand the whole of the letters, I decline to furnish it.

The committee adjourned until Monday, 10 A. M.

Charge against Harrison, the Accuser of Blaine.

OMAHA, June 9.—The Omaha *Republican* of to-morrow will contain an important statement from J. H. Millard, of this city, government director of the U. P. R. R., in relation to Government Director Harrison and his evidence in the Blaine charges. Millard states that Harrison seems to have acted from the first in the sole interest of Morton as a presidential candidate. When Harrison heard the story years ago about the Fort Smith matter, he saw his opportunity to aid Morton by making the allegations public at the proper time, and he declared to Millard three years ago, at the directors meeting at Boston, and has often repeated it since, that at the proper time if Blaine should be in O. P.'s way, he should tell this bond story and kill Blaine as a candidate. Mr. Millard states that he was recently informed it was intended by the parties opposed to Blaine to keep this a profound secret until the Republican convention assembled, and to spring it on Blaine then and there so that he could have no opportunity to vindicate himself. As respects the Kansas Pacific matter, Millard states that Blaine has a witness to his blamelessness in the person of a leading Democratic Congressman from New York who knows all the facts and knows that Blaine had nothing whatever to with it.

Gen. Butler Denies Engineering the Attack on Blaine.

NEW YORK, June 10.—In an interview with a *Herald* reporter yesterday General Butler emphatically denied that he was instrumental in making public the notorious Blaine letters. He says: "I engineer such a farce as that! Do you suppose if I had been Mulligan's counsel or a planner of the attack on Blaine I would have permitted Mulligan to go to Washington with these letters unless he also had copies and photographs of them? No, sir. And then if Blaine dared to buy the originals or could buy them when the time came to use them, fac-similes they would be forthcoming."

WASHINGTON, June 10.—Speaker Kerr is better to-day, and will sojourn for a few days at the Eaves country seat.

J. B. Stewart, a director of the Fort Smith and Little Rock Railroad Company, and who has been attending to Josiah Caldwell's private business during the latter's absence from the United States, recently telegraphed Mr. Caldwell at London, stating that doubts had been expressed as to the genuineness of the cablegram received by Knott, chairman of the House judiciary committee, on Thursday the 1st inst., signed Josiah Caldwell. To this Caldwell has replied, under date of London, as follows: "Cabled committee Thursday the 1st a full explanation. Caldwell." Thus authenticating the dispatch received by Knott. Stewart called upon the latter this morning and showed him this cablegram which having been left at this New York office yesterday was not received here until to-day. Sickles says Caldwell is traveling in Great Britain on railroad business, and may be in London one day and elsewhere another.

Cattle Plague in Canada.

MONTREAL, June 10.—The foot and mouth disease has broken out with great violence among horses at Outremont, hundreds are dead and dying.

CONGRESSIONAL.

Senate.

WASHINGTON, June 9.—Hitchcock called up the bill to provide for the sale of the Fort Kearney military reservation in Nevada. It authorizes the sale of said reservation to actual settlers at a minimum price of $1 25 per acre.

Ingalls said he understood that the railway and other lands in the vicinity sold at $2 50 per acre, and he saw no reason why the government should not receive the same price. He moved to amend the bill by striking out $1 25 as the price and insert $2 50.

Paddock thought the adoption of this amendment would be an unjust discrimination against actual settlers. After further discussion the bill was laid over.

Carpenter called up his motion to reconsider the vote by which the bill appropriating $100,000 to survey the Austin Topolovampo Pacific route was indefinitely postponed. He spoke in favor of the bill and said the construction of the road would open a vast and profitable trade between the United States and Mexico. The government of Mexico had its attention called to the matter and manifested a good deal of interest in the construction of the line. He submitted to the senators of California who were so interested in Chinese immigration, which threatens to overrun that country as well as our own, that it was all important that this country should act with Mexico in keeping back that tide of Chinese immigration.

West said it had been charged that this bill originated in the War Department, but such was not the case. It was first introduced in the Senate by the Senate committee and referred to the War Department for examination and report. The appropriation asked for was no great amount and the Senate should ask the question whether the expenditure should stand in the way of exploring another route to the Pacific. Millions of dollars have been spent in other highways to the Pacific. The people of the North had communication with the Pacific coast and all the people of the South now asked was a small appropriation to make a survey for a railroad, but they were met by objections. It was not fair nor just.

Maxey also spoke in favor of the bill, and said the construction of this road would do a great deal to settle the Rio Grande troubles.

Christiancy said he was not opposed to this railroad. He hoped it would be built, but he was opposed to any further government aid or subsidy to any railroad whatever North or South. Our experience in the past in reference to railway enterprises by the government had not been such as to warrant a repetition of it.

Pending the discussion the morning hour expired, and the motion to reconsider was laid over.

The Senate took up the postoffice appropriation bill. It increases the House appropriation $415,700. The first amendment proposed by the committee on appropriations was to appropriate $150,000 for mail depredations and special agents of the postoffice. After debate the Senate agreed to the amendments proposed by the committee on appropriations as follows: Providing that a sum, not exceeding $75,000 of the appropriation for special agents, may be expended for fees for U. S. attorneys, marshals, clerks of courts and counsel necessarily employed by special agents subject to the approval of the Attorney General; increasing the appropriation for wrapping twine from $1,500 to $9,000; for marking and rating stamps from $5,000 to $10,000; for letter balances and scales from $1,000 to $5,000 and for post route stamps from $200 to $3,000. The committee reported amendments to appropriate $10,000 for advertising instead of $20,000 as proposed by the House, providing that the Postmaster General shall cause advertisements of all general mail lettings of each State and Territory to be conspicuously posted up in each postoffice in the State or Territory embraced in said advertisement for at least sixty days before the time of such general letting, and no other advertisements of such lettings shall be required, but this provision shall not apply to any other than general mail lettings. After debate the amendment was agreed to. The House proposed to appropriate $6,800,000 for the compensation of postmasters and the Senate committee on appropriations reported an amendment to make the sum $7,500,000. A long debate ensued on this, and at length Sherman said the Postmaster General had declared he could get along with $100,000 less than the amount named by the committee, he moved to amend the amendment of the committee so as to make the amount for compensation of postmasters $7,200,000 instead of $7,500,000. He also gave notice that he would move at the proper time to increase the rate of postage on newspapers to four cents per pound, not to punish newspapers, but to make them pay some portion of their transportation through the mails.

Sherman modified his amendment, fixing the amount $7,300,000 so as to provide that the reduction in the rate of compensation shall commence the 1st of October next. The amendment was then agreed to, yeas 22, nays 15.

The other amendments proposed by the committee were agreed to as follows: Increasing the appropriation for rent, light and fuel, from $300,000 to $425,000, the appropriation for stationery from $40,000 to $50,000, for miscellaneous expenses, from $50,000 to $100,000; for compensation to railway postal clerks, from $1,225,000 to $1,300,000, for route agents, from $150,000 to $1,000,000; for mail route messengers from $17,000 to $60,000; for local agents, from $95,000 to $100,000, for mail messengers, from $621,000 to $720,000; for pay of agents and assistants to distribute stamped envelopes and newspaper wrappers, from $10,000 to $16,800; and for transportation of foreign mails, from $225,000 to $250,000.

The section of the House bill in regard to stamped envelopes was amended to read as follows and as amended, agreed to. No stamped envelopes or newspaper wrappers shall be sold by the Postoffice Department at less than, in addition to legal postage, the average cost, including salaries of clerks and other expenses connected therewith. The amendment of the committee providing that so much of the $17,000,000 appropriated for the Indian mail transportation as may be necessary, may be used to continue the daily service between Chicago and the Pacific coast, not exceeding, however, the sum of $25,000, was agreed to. The last eight sections of the bill readjusting the compensation of postmasters providing new rates for postal railway service and fixing the rate on mail matter of third class at one cent for each two ounces, etc., the committee on appropriations recommended to be stricken out, and were stricken out, and on motion they were referred to the committee on postoffices and postroads that they might be considered and appropriate bills reported to change the existing law.

House.

[Conclusion of the debate in the House, Friday.]

Speaker—A quorum has not voted.

Page—I move that the House do now adjourn.

Springer rose at the same time as Page, and was recognized by the chair.

Page stated that his motion must be put.

The Speaker pro tem intimated that the chair understood its own business, and added, two motions were in order, one for a call of the House and one to adjourn, and not a contest that the gentleman from Illinois could not make either of these motions.

Page—I have just made one.

Springer—My point of order is this—

Blaine—No points of order.

Speaker—The gentleman is not Speaker of the House now. (Applause and laughter on the Democratic side.)

Blaine—But I am a member.

Springer—The Parliamentary enquiry which I was trying to put if the gentleman from Maine would allow, is this, whether a quorum of members although not voting are in their seats, and whether the chair will not take cognizance of that fact.

Speaker—The Parliamentary inquiry is a very pertinent and proper one. The chair decides that in deciding the presence of a quorum, it cannot go outside of the record just handed up by the clerk.

Blaine—Now a motion to adjourn is in order.

Page—I renew my motion to adjourn.

Springer—I move a call of the House.

Blaine—I rise to a point of order.

Speaker—The gentleman will state his point of order.

Blaine—I desire to have read as explaining the point of order an extract from the rules. The clerk read from the manual as follows: "It is not in order on private bill day to call up and consider a motion to reconsider a vote on a public bill if objected to; except after the postponement by a majority vote of the private business."

Blaine—(resuming)—The Chair overruled that point when made by the gentleman from Iowa. I asked the Chair to give its reason and the chairman declined to do so, and very prudently, because the rule is explicit that a motion to reconsider is not in order during private bill days. This is a public matter. It is not here properly. It is here by defiance of rule, by the ruling of the Chair, for which the chairman could give no reason, and which is right in the teeth of the letter of the rule. That is my point. [Loud applause on the Republican side and galleries.]

Springer—The rule uses the words "A public bill." This is not a public bill. It is a resolution of a private nature in the interest of the nomination of the gentleman for President of the United States. [Applause, hisses, laughter, great uproar and excitement.] The gentleman from Maine raised a point of order and has had the rule read, but in the opinion of the Chair that rule is not applicable at the present stage of business. It is enough for the Chair to say that oftentimes the occupants of the chair make rulings without giving reasons for them; otherwise the whole business of the House might be taken in that way.

Blaine—I never have seen—

The Speaker—The Chair has to call the gentleman from Maine to order and gives no reason for it, because it is apparent that he is out of order in repeatedly interrupting. [Applause on the Democratic side.] The gentleman knows the rules very well,—that he must not interrupt the Chair when making a decision.

Brown—I wish simply to know if this is an American Congress.

Blaine—That is what I want to know, too.

Brown—Or whether we are pupils of a schoolmaster from Maine. [Laughter.]

Blaine, without heeding the Speaker's gavel: It is the most surprising American Congress that ever assembled. [Laughter and applause.]

A number on the Democratic side—To that we agree. [Laughter and applause and general uproar with Speaker vainly endeavoring to enforce order, and the audience in the gallery paying as little attention as the members on the floor to the efforts of the Chair in that direction.]

Morrison asked unanimous consent to offer the following resolution: "Resolved, That all evidence taken by the judiciary committee under authority of the resolutions of Lyttle and Tarbox be printed, and that the dispatch signed by Josiah Caldwell be also printed as part of the record and in case said committee shall examine any witnesses who may be called who may have heard Caldwell make the same or contradictory statement as that contained in said dispatch, that the evidence of such witnesses shall also be printed with other evidence taken by said committee."

Speaker—Is there any objection?

Hoar—I object. [Confusion and excitement.]

The Speaker directed the door keeper to exclude from the floor all persons not entitled to privileges and to preserve order in the galleries, announcing his determination to break up this system of [illegible] in the House.

After considerable debate the question was again taken up and this time the members did not withhold their votes. The motion to lay on the table was carried—yeas 136, nays 91.

Morrison then asked leave to offer his resolution, but Hurlburt, of Illinois objected.

The House then went into committee on private bills, and soon after adjourned.

Senate.

WASHINGTON, June 10.—The Senate met to-day at the usual time, but there being no quorum present, a motion to adjourn prevailed.

House.

Cox reported from the committee on banking and currency a bill for the issue of $10,000,000 silver coinage in exchange for legal tender notes. He moved the previous question and refused to admit an amendment proposed by Mills, of Texas, to repeal the resumption act. The previous question was seconded, 84 to 37 and the House then voted by yeas and nays on ordering the main question which was ordered and the bill passed without discussion.

Randall's bill authorizing the coinage of twenty million dollars of silver and authorizing the purchase of bullion for that purpose, passed.

Banning offered a resolution calling on the Secretary of the Treasury to report the amount of internal revenue taxes paid by the Baltimore and Ohio and Central Pacific railroads from July 1st to 31st December 1871, adopted.

Patterson, from committee on Territories, reported back the Senate bill to further the administration of justice in the State of Colorado. It provides that when Colorado shall be admitted as a State, the laws of the United States shall have the same force as elsewhere, and said State shall constitute one judicial district, passed.

On motion of Knott, chairman of the judiciary committee, the bill prescribing an oath for grand and petit jurors was recommitted.

Lynde, from the judiciary committee, reported back the Senate bill amending bankruptcy, passed.

Banning, from committee on military appropriations, reported the Senate bill reducing the number of medical corps of the army. It fixes the number of assistant surgeons at 125, abolishes the office of medical storekeeper, and in addition to the grades allowed by law provides four surgeons with the rank of Lieut. Colonel.

Lynde, from the judiciary committee, reported a bill to facilitate and encourage philosophical, mechanical and scientific exhibitions at the Centennial exhibition, passed. Also a bill relating to emigration. It provides that when any two persons shall file with the collector of any port of the United States an affidavit that on board of any vessel in said port there are persons prohibited from landing it shall be the duty of said collector to make an inspection and prevent their landing; passed.

Randall's $20,000,000 silver bill which passed was amended by striking out the provision that any of this coinage shall be exchanged for legal tenders.

The House then at 5:30 o'clock took up the Geneva award bill and was addressed by Willis of New York. While he was speaking a large piece of thick plate glass which forms the roof of the chamber fell in close proximity to several members, but fortunately without injury to any person.

Banks thereupon rose and called attention to the fact that several workmen were on the roof engaged in cleaning it, and that the lives of members were thereby imperiled.

The clerk was directed by the Speaker to inquire into the circumstances and to prohibit absolutely any person being on the roof during the session of the House. In consequence of this interruption Willis did not proceed with his speech, but yielded to Poppleton, of Ohio, who made a report from the election committee in the Massachusetts contested election case that Frost, the sitting member is not entitled to his seat, and that Abbot, the contestant is. A minority report with opposite conclusions was presented by Townsend of New York. The reports were ordered to be printed.

Wells, of Mississippi, then addressed the House on the Geneva award, and had read the substitute which he proposed to offer for the bill. At the conclusion of Wells' speech, the bill went over without action.

On motion of Randall, of Pennsylvania, chairman of the committee on appropriations, the Senate amendments to the executive legislative and judicial appropriation bills were non concurred in.

Levy, of Louisiana, offered a resolution instructing the special committee on Louisiana affairs to investigate the outrages alleged to have been recently committed in West Feliciana, Louisiana; adopted. Adjourned.

BY ATLANTIC CABLE.

Shipping Intelligence.

LONDON, June 10.—Arrived at Liverpool, 10th inst., ship *Bowden*, Portland, Oregon. Sailed from Liverpool, ship *Granger*, San Francisco.

Grant for Sending French Workmen to Philadelphia passed.

VERSAILLES, June 10.—The Senate to-day, by a vote of 161 against 3, passed the grant which had been previously voted by the Chamber of Deputies for sending a delegation of French workmen and agricultural implements to the Centennial Exhibition at Philadelphia. The party of the Right abstained from voting.

The Laws of the Late Sultan Suspended.

CONSTANTINOPLE, June 10.—The Grand Vizier has addressed a circular to the governors of the provinces suspending the regulations promulgated during the reign of the late Sultan, and ordering them to await fresh laws.

Servia Disavows Warlike Purposes.

Servia in reply to the inquiry of Turkey as to the meaning of her armaments, affirmed its pacific intentions and declared at the same time it will not attempt anything against the integrity of Turkey. A special envoy will be sent to Constantinople for the purpose of giving explanations in order to facilitate a good understanding between the two countries.

Prince Milan Warned against Breaking the Peace.

BELGRADE, June 10.—During the last few days, the representatives of all the powers have united in impressing upon Prince Milan that the full responsibility for an eventual disturbance of the peace would rest with Servia. The Russian diplomatic agent was especially active in these representations.

Imperial Bank of Germany.

BERLIN, June 10.—The weekly statement of the Imperial Bank of Germany shows a decrease of 2,050,000 marks.

Winslow Extradition Case.

LONDON, June 10.—Sir Henry James, Liberal member of Parliament for Taunton, has given notice in the House of Commons that on Monday he will ask Bourke, under foreign secretary, whether Secretary Fish's dispatch of the 22d of May, relative to the case of Winslow was received at the office on the 6th of June and whether there is any objection to laying it on the table of the House. It is certain that the government will again ask for Winslow's remand unless it be decided to have the whole matter argued before a full bench of which there is some probability.

Bank of England.

LONDON, June 10—5 P. M.—The amount of bullion gone into the Bank of England on balance to-day is £19,000.

Turkish Affairs.

LONDON, June 10.—Correspondents agree that all danger of immediate outbreak on the Servian and Montenegrin frontier is removed.

A Vienna dispatch reports that Murad has ordered his government to prepare a new programme within a week.

Killed by Lightning.

The Czar, Turkey and the Insurgents.

LONDON, June 9.—A telegram from Berlin says the Czar has prevailed upon Servia to adopt a peaceful policy. Turkey spontaneously offered the insurgents two conditions included in the memorandum, namely, three months' armistice and direct negotiation.

PARIS, June 9.—Intelligence received here asserts that some of the insurgent bands accept the armistice and others refused.

The Porte Asks Servia to Explain.

CONSTANTINOPLE, June 9.—The Porte has courteously asked Servia to explain the meaning of her armaments. This request is not made in a threatening manner or as an ultimatum.

CENTRAL AMERICA.

News from Columbia, Costa Rica and Honduras.

NEW YORK, June 11.—Panama advices of June 1, per [illegible], state that the President of Colombia has authorized a contract for the exploration of a route, and if possible, the construction of an inter oceanic ship canal across the isthmus of Darien.

The Conservative Catholic party threaten war in Colombia for supremacy.

The remains of Admiral Collins came on the Acapulco.

The Costa Rican Congress has empowered the President to settle the disputes with Nicaragua.

Internal peace is not established in Honduras. Martial law has been proclaimed in Nicaragua and the President has taken command of the army. A definitive treaty of peace between Guatemala and Salvador has been concluded.

CINCINNATI CONVENTION.

What Mulligan Says about the Letters.

NEW YORK, June 11.—The *Times'* Boston dispatch says that Mulligan has again been summoned by the Blaine investigating committee. There are many questions which will bring out the entire information if the committee only know what to ask. In regard to Blaine's reading of the letters, Mulligan intimates pretty strongly that Blaine not only was not honest in reading them, but that he substituted various non committal and unimportant letters in the place of those noted in Mulligan's memorandum as bearing directly on the case.

The *Times'* editorial says, if the nomination of a Republican candidate for the Presidency were a game of bluff or brag, Blaine would be tolerably sure to win, but it is a misfortune for him that bluff stands in the same relation to the Chief Executive that poker does to its diplomatic representative.

Proposition to Mr. Hayes Decl[illegible].

The *Times'* Washington correspondent says that a gentleman recently went to Columbus and saw Hayes, and tried to get him to combine his forces and make a ticket of Blaine and Hayes. Hayes, in declining, suggested to the gentleman "When you return to Washington you ask Blaine whether in case of the improbable, but not impossible contingency which may arise, if he would be willing to reverse the vote."

The Struggle for Blaine to begin Wednesday.

The *Herald's* Cincinnati dispatch says Blaine's supporters mean to make a thorough trial of his strength on Wednesday.

The Chances of Morton and Conkling.

The Southern colored delegates pretty unanimously express their obligations to Morton and their intention to vote for him on the first ballot, and to continue faithful to him if he appears to have a chance, but they don't feel they ought to be stubborn, particularly as they do not hope to carry their State for the Republican nominee, and therefore, their leaders, among whom Fred Douglass is prominent, frankly say that if Morton's nomination should seem hopeless, they would give way as soon as this became evident. In that case, there seems every reason to believe they regard Senator Conkling as the man they would most readily and zealously support. There is a report here that Schurz has declared to his friends that while he would prefer the nomination of Bristow, he would give his support to Conkling if the St. Louis convention should adopt a soft money platform, or nominate a candidate whom he did not like.

Numerous Vice Presidents are turning up. The list so far, includes ex-Senator Ramsey, McCreery, Senator Alcorn, Senator Ingalls of Kansas, Gov. Hayes, Mr. Wheeler of New York and Gov. Morgan, whom it is regarded as certain the Bristow men prefer for their ticket. Senator Oglesby and others say there is not the least doubt that Conkling's prospects have been brightening for at least two days very rapidly. Many who thought day before yesterday that his friends greatly over estimated his strength, are now convinced that he has a more than fair chance of the nomination and that this increases constantly and rapidly now.

Blaine's Prospects.

WASHINGTON, June 10.—The friends of Blaine have been making, to-day, a careful canvass of his probable vote in Cincinnati on the first ballot, and it may be stated that they give him 317 votes to commence with. In addition, they confidently expect, on the second ballot, a very considerable increase from Missouri, Alabama, Texas, Mississippi and Tennessee, leaving the votes of Ohio and Pennsylvania still intact. From both these States Blaine's friends anticipate with certainty a generous support in the end, and it is claimed that the end will be on the third ballot at the farthest, and very possibly at the second.

Delegates Arriving at Cincinnati.

CINCINNATI, June 10.—Representative Frye and Hale, of Maine, and Tyner, of Indiana, arrived to-day from Washington. The latter is for Senator Morton, while the Maine Republicans are here to push the interests of Blaine. A reporter of the *Times* interviewed them, and found they were confident of success, notwithstanding the pending investigation. Mr. Hale says Blaine's friends believe his strength in the convention is made up after his wonderful series of victories in the State conventions of May 20th, added to the endorsement of the State of Iowa in the succeeding week, will be fully held in convention. There has been nothing received indicating any weakening; on the contrary since Monday last, there have been many professions of confidence and promises from quarters that have not before been friendly. Frye said, "I think from information I have received we can assure you that the feelings of Blaine's active friends have been intensified, and some doubtful men have been made certain in his favor." He added, if there is any faltering we have not heard of it. Other politicians do not concur in this view of Blaine's chances; they say the published letters are fatal to him, and after receiving a handsome vote on the first ballot, his support will divide among other candidates. The Ohio people claim that they have assurances that when Blaine's friends find it impossible to nominate him, they will go to Hayes, securing the latter's success. The Indiana men also admit Blaine's complimentary vote will be large; but that his name will soon be dropped, and they will gain many of his followers. They assert that Morton will show enough strength to secure the nomination on the third or fourth ballot. The names of Washburne and Taft are now more frequently mentioned as compromise candidates than formerly. Some of the Bristow Clubs from New York, are saying that the Independents will be satisfied with Washburne. Already there are evidences of the use of money. The vote of some of the Southern delegates may prove a surprise. The Ohio delegates held a large and enthusiastic meeting at their headquarters at the Grand Hotel this evening and resolved to vote in a body for Hayes. This evening the New York delegation serenaded the Indiana delegation at the Grand Hotel, and the multitude assembled in the rotunda were addressed by Gov. Lovesorth, of Indiana, Fred. Douglass, of Washington, Hon. A. B. Cornell and Silas B. Dutcher, of New York. All the speakers pledged their States to support the nominee of the convention, and all were guarded in their remarks and expressed no preferences.

CINCINNATI, June 10.—Trains are arriving this morning crowded with delegates to the convention, the friends of prominent candidates, and others interested in the coming contest. Among other notable arrivals are Eugene Hale and W. H. Frye from Maine, Benj. F. Loan, St. Louis; Parker C. Chandler, of Boston; Schuyler Crosby, of New York; Wm. Henry Smith, Chicago; A. G. Brown, Thos. Stewart, J. R. O'Brien, New York, Geo. Stearns, New Hampshire; Parson Brownlow, Tennessee. The Lincoln Club, of New York, headed by Downing's band, paraded some of the principal streets immediately upon their arrival, making a very creditable display. The rumor that Mr. Blaine would be [illegible] next week is authoritatively denied. As regards the prospects of candidates, every moment's developments seem to indicate that the struggle next week will be very obstinate. It is probable that balloting will not take place before Thursday, and perhaps not until Friday. In an interview with J. H. Frye this forenoon, he denies emphatically that Blaine would withdraw his name as a candidate, or that after the first ballot he would name the candidate who should succeed him. The friends of Blaine claim that because the Democrats believe him the least(?) dangerous to their party they have subjected him to the ordeal through which he has passed. There is great anxiety to know where Illinois will go in the event of Blaine's failure to secure a majority. Conkling's friends are very enthusiastic and confident of the success of their favorite. Bristow's adherents seem to lack strength, although a large number of delegates friendly to him are expected to arrive Monday, especially from the South.

ST. LOUIS, June 10.—Messrs. Thatcher, Horton, Sears, Leland, Lowe and Sheldon, of the Kansas delegation to the Republican national convention, arrived here this morning and will leave for Cincinnati to-night. The other three members are already East. The delegation is solid and enthusiastic for Blaine. The Colorado delegation came down with them and they are also for Blaine. The combined delegation sent a dispatch this morning to Blaine, assuring him of their support. Judge Usher and Mr. Brethrelon, of Lawrence, Kansas, are en route to Washington to testify before the committee in the Kansas Pacific bond matter. Judge Usher is sick and will stop over here a short time. He says his testimony will confirm that of Stewart, given some time ago, in exonerating Mr. Blaine from all connection with Kansas Pacific bonds.

Congressmen Going to Cincinnati.

WASHINGTON, June 10.—It is believed about 100 Republican members of Congress will leave this city between now and to-morrow night for Cincinnati, to attend the nominating convention. Several Democratic members will also be present in that city. Blaine, in reply to inquiries as to the truth of the report that he designed to attend the convention says the report is utterly without foundation and he never for a moment contemplated such a step.

The rumors of correspondence between Blaine and Conkling with regard to an adjustment of their personal difficulties, or any other subject, have no foundation in fact, no correspondence of any kind having taken place between them, nor any personal interviews.

Wisconsin Delegation Declare for Blaine.

CHICAGO, June 11.—The Wisconsin delegation to the national Republican convention at Cincinnati held a meeting here to-day, seventeen of the twenty being present. Hon. P. Sawyer introduced the following resolution, which was unanimously adopted:

Resolved, That we will cast our vote for the Hon. J. G. Blaine, of Maine, and use every honorable means to secure his nomination.

A Bristow Club Sends a Delegation to Cincinnati.

The Bristow club held a meeting to-night and appointed a delegation of one hundred to go to Cincinnati to work in the interest of Bristow.

North Carolina Politics—Split in the Democratic Ranks Imminent.

The *Times'* Raleigh special says that very lively times are anticipated next week, as a split in the Democratic ranks is imminent as the secessionists have seized the reins and leadership, and Union element of the Democracy are in revolt. Several addresses and speeches have been delivered on both sides recently, which the party is trying to hush up until after the convention.

Democrats Bitter against Blaine.

The *Tribune's* Washington correspondent says the Democrats are so inflamed against Blaine that they are likely to reverse their decision and admit hearsay evidence. This decision can be reversed in two ways, by reconsideration of the former action by the judiciary committee or by instruction from the House, which enlarges the Morrison resolution, so that it is incompetent for the judiciary committee to reconsider its action. Democrats say that the admission of the telegram from Caldwell entirely changed the legal aspect of the case, so that the Democrats who before, under a different state of facts, voted with the Republicans, will now be certain to vote with the rest of the Democrats for the enlarged jurisdiction. It may be possible for the Democrats in the House on Monday, on suspension of the rules to pass the Morrison resolution, as many Republicans will be absent at Cincinnati. There can be no doubt that the Democrats will then have a two-thirds majority.

Chinese Immigration Falling Off.

SAN FRANCISCO, June 10.—The Pacific Mail steamer *City of Peking* arrived this morning from Hongkong via Yokohama. She brings only about 100 Chinamen. Four or five hundred intended taking passage on her, but on receipt of instructions from their countrymen here, all returned ashore except the number above stated.

Smallpox Abating.

No new cases of smallpox have been reported at the health office since Thursday. On that day two mild cases were sent to the Twenty-sixth street hospital. There have been 37 known cases since the 19th of May, and 11 of them reported since June 3d, and 16 deaths. The patients are all convalescent.

The National Gold Bank and Trust Co. in their New Offices.

The business of the National Gold Bank and Trust Co. was moved to-day to the offices lately occupied by Wells, Fargo & Co. There has been a general change of officers, and the business will be resumed on Monday at the new quarters.

Fire in the Call and Bulletin Office.

SAN FRANCISCO, June 11.—About 8 o'clock this morning the *Call* and *Bulletin* press room on Clay street, between Sansome and Montgomery was discovered on fire. The pressman had left but a few moments before, which everything was apparently all right. The fire appears to have originated in the basement, burning up through the open space in which the press stood to the main floor; but was extinguished before reaching the second story. All the wood work of the eight cylinder press was burned off; several hundred dollars worth of paper was destroyed and the room pretty well gutted. The fire communicated to the gunsmith shop of Wilson & Evans' adjoining, but was extinguished with slight damage to the stock. The principal loss is in the damage to the press, which is yet undetermined. Arrangements have been made to enable both papers to [illegible]. The fire is supposed to have caught from sparks from a pipe or cigar in the inflammable material laying about the press room.

The loss by fire in the *Call* and *Bulletin* press room this morning will not probably exceed $5,000, the greater portion of which accrues in damage to the press, which is covered by insurance. The fire ran up from the elevator to third story, damaging a few cases of type and one form of the *Weekly Bulletin*. The proprietors of the *Post* and *Alta* promptly offered the use of their presses, and the *Call* will be printed on the *Post* press pending repairs.

Mutineers Brought to San Francisco.

The steamship *City of Peking* yesterday brought here in double irons six sailors of the ship *Canada* from Manila charged with mutiny in refusing to sail in the ship from that port, alleging the negligence and incompetency of the master as the reason for refusing duty. They were kept in jail 45 days at Manila and several weeks in irons on the U. S. steamer *Kearsarge* on which they were taken to Hongkong, thence transferred to the *City of Peking* and brought to this port. During the passage hither the irons were removed until this port was sighted.

Lortee Held for Manslaughter.

T. B. Lortee, who killed Chisholm at Badger Park a few days ago has been held by the Police Judge of Oakland on a charge of voluntary manslaughter; bail, $5,000.

The Dissat[illegible]

The dissatisfied stockholders of the Trojan mining company have [illegible] the past few days had several thou[illegible] added to the list, and yesterday t[illegible] was 40,000 shares. The committe[illegible] take necessary steps to enjoin the sale of delinquent stock advertised for the 12th inst.

A[illegible] the Niagara Fa[illegible]

It is probable the Niagara inquiry will be amicably settled, as the present management are said to be willing to resign in the stockholders' favor, providing 40,000 shares of stock can be obtained by the investigating committee, which the latter think can be had as soon as the fact becomes known.

D[illegible] of Newark.

The dissatisfied stockholders of the Newark mine, Ely district, met yesterday. Seven thousand two hundred shares were represented and appointed a committee to investigate the affairs of the company.

Modoc Indian Killed.

YREKA, June 10.—A Modoc Indian was killed last Wednesday at Butte creek, by a tree falling on him which he was felling to make a canoe. He is reported to be Old Sleepy. The whites at the reservation think that Tecumseh was killed by being thrown from a horse, but the Indians think he was killed by Tom McKay. The matter will be investigated.

Los Angeles News.

LOS ANGELES, June 10.—No particulars of the robbery of the telegraph stage between Tehachepia and San Fernando, have yet been made public. The Southern Pacific Railroad is now completed to Kean's, twenty miles south of Caliente. Passengers will hereafter be transferred to and from stages at the former station.

Monstrosity.

A child was born yesterday in East Los Angeles, the head of which resembled a sheep, the back of the skull being shaped like the apex of a low triangle, and ears like those of a dog; otherwise, the physicians say, well formed. It lived but a few minutes.

Suicide—Lingering Death.

Christian Smalley, who shot himself yesterday morning in the abdomen, lingered in great agony until towards evening when he died. It seems that the bullet in its upward range went through some vital part. The man had acted very strangely for some time before he committed the fatal act, and was doubtless laboring under an aberration of the mind.

A Centenarian before the Courts.

The petition of John White, to remove the person of Mrs. De Guillen, the centenarian, from the custody of Maria Rosario de White, her present guardian, and discharge her from such custody, was heard by Judge Dwinelle to-day and taken under advisement. The party making the application, says that the old lady, instead of being kept in the care of her guardian, has been handed over to one Herlep, and that her life will be endangered unless the court affords the relief asked for.

One logger, residing in Olympia, states that during the summer of 1875 he spent over $1,800 for oil alone, with which to grease skids on which logs were drawn.

The Daily Oregonian.

MONDAY MORNING JUNE 12, 1876

BLAINE'S FIGHT WITH THE CONSPIRATORS.

The Eastern dispatches still continue filled with reports of the running fight between Blaine and the Confederates in Congress. Blaine never fails to drive them before him and vindicate his reputation as a parliamentary gladiator. His skill is equal to his pluck, and his pluck is beyond what has ever been witnessed before in the history of American politics. It is impossible not to admire a man who can meet and put to rout, single handed, seven score of the picked men of the Democratic party, and that too in their own organization, and in spite of their using or rather trying to use every advantage which the possession of the organization gives them. And yet there is cause to fear that Blaine is allowing himself to press his helpless antagonists too hardly for his own good. There is danger of his allowing his triumphs to tempt him beyond the necessities of the situation. So long as he is the aggressor only so far as appears necessary to defend his honor and vindicate his character he can count certainly upon the approbation of the country, but his position is a delicate one and requires that he avoid all appearance of keeping up the remarkable conflict merely to gratify his pride of prowess or his personal animosity, or for the purpose of political effect. These dramatic scenes in the House and in the committee room are not creditable in themselves; they are creditable only in case they are necessary to defend an honest man against the conspirators who have resolved upon his destruction. Within this limit they excite the admiration of all who love justice and hate foul play; carried beyond this limit they would become indecent and intolerable. Mr Blaine has but two days more to struggle against the endeavors of those who have set upon him with such conscienceless savagery, but in those two days he may wreck his prospects. It remains to be seen whether he has discretion commensurate with his courage.

KERR AND BLAINE.

It is probably true that the testimony of Harney, in which he stated that he gave Mr Kerr—now Speaker of the House—a bribe of $4,500 for securing the appointment of Green to an office in the army, is a falsehood. Mr Kerr declares it is, and it must be admitted that the testimony of a man who has the hardihood to detail the circumstances of an infamous transaction in which he says he was engaged, is open to suspicion. But if the word of Mr Kerr, unsupported by a single witness, is sufficient to put down the sworn testimony of Harney, why is not the sworn statement of Mr Blaine, corroborated by other witnesses, a sufficient answer to the story of Harrison, who does not even profess to have any personal knowledge of the facts he relates, or of Mulligan who comes before the committee as a betrayer of his employer's confidence? Harney is a gentleman of as high respectability as either of the others, and appears in a much less odious character than Mulligan. Why is not Harney's story conjugated and declined in all its moods and tenses and with all its augments and reduplications, through the Democratic journals as has been done with the charges against Blaine? There is but one explanation possible. Kerr is a Democrat, while Blaine is a Republican. The Democratic sense of justice does not permit the circulation of any story affecting the character of a Democrat, but a story without foundation and proved to be false, will be heralded throughout the land if only the injured person is a Republican.

INTELLIGENT VOTING.

The returns from the different counties show that there was an unusual amount of intelligent voting done last Monday. It is commonly mentioned simply that there [illegible] deal of scratching. But scratching [illegible], as a general thing, voting on [illegible] judgment, and not submitting to the dictation of politicians or parties. A voter who scratches his ticket pretty liberally is, *prima facie* a voter who understands himself and appreciates the duty and responsibility of the citizen in the exercise of the right of suffrage. But the indications of intelligent voting are more apparent when a careful inspection of the tickets is made. While there was more scratching than is ordinarily the case in the legislative ticket the greatest freedom was exercised with respect to offices having less of political significance. A clerk, sheriff or other local office could not be filled this year by party nomination. A candidate to be elected had to bring forward personal qualifications and individual popularity as well as the endorsement of his political organization. Thus we have in some counties a clerk or sheriff elected whose party associations and affiliations are with the party that has a minority in the county. The people have taken the distinction between non-political offices and those that have political significance and have governed themselves accordingly. It is a symptom of political health at which good citizens can not but feel gratified.

THE EUROPEAN WAR CLOUD.

Affairs in Eastern Europe assume a more threatening attitude from day to day. Russia contemplates a revival of her Eastern policy of acquisition which was checked by the combined action of France and England in 1854, and England still adheres to her ancient purpose of standing between the Ottoman Empire and the Czar. But Russia [illegible] the sympathy at least of a new power. The German Empire has become the leading power of Continental Europe, while England finds all she has enough to do to preserve order at home. Add to this that among Christian nations not even excepting England herself, the oppression of Eastern Christians by the Turks has excited a strong feeling against Turkey, and it is apparent that the time for Russia to push her scheme of dismemberment of the Turkish Empire [illegible] [illegible] Europe is much more propitious now than when the former attempt was made. Besides with the lesson of the Crimea fresh in her mind, Russia will not again enter upon such a scheme except with a determination to fight it out on that line to the bitter end. There must be a back down on one side or the other within a short time or else a conflict beside which the Crimean war was but a trifling skirmish.

The exciting scenes in Congress have of late attracted so large a share of public attention as to obscure all the rest of the doings of the Congressional investigators. At another time the disclosures at New Orleans would [illegible] much [illegible]. In all the catalogue of investigation no more unclean den has been opened than that which has been found in Louisiana. There seems to have been no department of the public service in that State which was not rotten to the core. The corruptions of Mercy and Sypher, the two most [illegible] frauds by whom the carpet bag government was represented at Washington were fairly eclipsed by the infamies of the custom house and post office at New Orleans. Warmoth and his fellow band thus found worthy successors in Kellogg and the other agents of the Washington ring who were kept in office in Louisiana by force of arms. We have little faith in the set that are now coming into control of the State government, but it is pretty safe to predict they will be no worse than those whom they supersede and no match in downright scoundrelism for the unprincipled mercenaries who do the business of the General Government for the sovereign reconstructed State of Louisiana.

A typographic error in our issue of Saturday made it appear that all the Democratic candidates for the legislature from Yamhill were elected. The error occurred in stating the vote cast for F J Henderson, who instead of receiving 611 received 631 votes and was elected, beating Goucher, Democratic.

The Eugene *Guard* truthfully says: This election shows conclusively, we think, that in cases where the question arises solely on men to fill offices of the county where no particular political principle is involved the people are no longer under any party lash.

As the official returns are received we are under the necessity of modifying our estimate of the complexion of the next legislature. As the matter now appears to stand the Democrats will probably have a small majority on joint ballot.

A friend writing the *Tribune* from Baker City says: Our county is going to receive a much larger quantity of gold from the mines than ever before, I think, this year. Water is excellent and in the providence of God this is to be a year of pay streak. More gold will be taken out this year, from the present outlook, than the four years past have yielded. Will not that be good? Our spring is very cold and the grass and grain is very strong, although not so very forward. Tremendous crops will be the result.

Advices received from Canyonville state that another rich strike was made in the Lucky Queen mine last week. In running in the main cut a ledge was struck which is likely to prove the richest discovery ever made on the coast. Gold is shown all through the quartz, plainly visible to the naked eye and the rock is inexhaustible and easily worked.

STAGE OF WATER.

Last evening, at 5 o'clock, the following dispatches from the several points named will indicate the stage of water along the Upper Columbia:

Dalles—River fell 4 inches here; ther 70°.

Wallula—Weather clear; ther 76°; river has fallen 2 inches since morning, 5 inches since yesterday morning.

Celilo—Clear, warm; ther 7[illegible]°; river fell 1[illegible] inches since morning.

[illegible]—Clear, warm; ther 73°; river at [illegible]

A Western genius has invented a machine for making artificial foliage. He might call it a "patent leaf-er." Every leafer for the Centennial should call at Fishel & Roberts and purchase a suit of their fine clothing.

THE HIGH WATER.

THE STAGE OF WATER AT THIS PLACE, EAST PORTLAND, DOWN THE COLUMBIA AND THE DALLES—ITS DAMAGING EFFECT—THE REMARKABLE FRESHET OF 1862.

A portion of the back porch of the Cosmopolitan Hotel is under water at present writing, and the pontoon at the ferry landing has been swung up by the rising water until it is almost level with the pavement on Front street. Already the water has filled the gutters at the corners of the sidewalk, and a few inches more will cause it to invade Front street. In East Portland the plank roadway leading along Water street from I street, each way, is afloat, and, consequently, is impassable for teams, horsemen and pedestrians. As the bridge is constructed of light timber, and, when under water, liable to be moved about, a number of piles have been driven along I street roadway at intervals, which will prevent the structure from being swayed to and fro and shifted from its foundation by the action of the water. Leading up I street for some distance beyond the ferry landing the roadway is so constructed that it will float, and thus adjust itself to the stage of water. Travel will not have to be suspended along I street for several days, or until the roadway is entirely submerged beyond Water street. The river at this place has attained a point about equal to that reached during the highest stage in 1871. The railroad trestle work in East Portland lacks only about two feet of being submerged. At the foot of F street the water has covered the planks to the depth of several inches, and pedestrians are enabled to reach the pontoon dry shod only by means of a temporary footway. Front street, north of E, has been barricaded and teams are not permitted to travel over the half floating roadway. A large quantity of railroad iron has been distributed about North Front and First streets in front of the Clarendon Hotel, to keep the planking from coming up, which is certainly a wise precaution at the present stage of water. Three or four inches rise will bring the water in on the first floor of the Clarendon Hotel. Just north of G street on Front, the water from the river and Couch's Lake has met, and the railroad track is inundated for some distance.

Reports from down the Columbia indicate that the high water will do much damage. Sauvie's Island is, to all intents and purposes, submerged. No signs of life were visible on the Island Saturday when the Astoria boat passed up, with the exception of a cow, which was standing on the summit of a little eminence entirely surrounded by water, and a lone chicken that had taken refuge on the roof of a partially inundated house, waiting with philosophical apathy for some one to come and take them off. Further down the Columbia the water has done considerable damage to crops, vegetables and particularly strawberries. Mr. La Due, the well known and extensive cultivator of these delicious berries, will sustain quite a heavy loss from the freshet. All his large crop of vines, now loaded with berries, are covered with water, and will, of course, prove a total loss. Many other persons residing along the river will sustain more or less damage from a similar cause. At several of the fisheries—especially at Wm. Hume's—some anxiety is felt about the prospective submergence. There are large quantities of fish canned, packed and ready for shipment which will be placed in jeopardy should the river continue to rise.

The Dalles paper says: "Thursday, at 2:30 o'clock P. M., Dalles City, while we write, is suffering terribly from another overflow of the Columbia. Main street, as far up as the *Tribune* office, is altogether under water, portions of the railroad track excepted. On the corner of Main and Washington streets the water easily floats a skiff. Handley & Sinnott and nearly everybody on the east side of Main street, up as far as the drug store, have left their houses and places of business and located temporarily elsewhere. The water reaches back up to Moabus' bakery and various other portions of Second street. Mrs. Wilson, the postmistress, has had a long bridge or trestle-work constructed, so that the public may be able to get their mail matter; but should the water come up much higher the postoffice will have to be moved. Court street is covered with water as far up as Cook's saloon. The river has reached within three feet eight inches and a half of the high water of 1862, and five inches of the high water of 1871."

THE FRESHET OF 1862.

As frequent reference is made to the stage of water attained during the summer of 1862, we reproduce from our files of that period a few extracts, to indicate the state of affairs then with reference to the "rise." The OREGONIAN of June 11, 1862, says:

This city and the lower Willamette and Columbia river valleys are now visited by a flood "the like of which the memory of the oldest inhabitant runneth not to the contrary." From Vancouver we learn that the Columbia has risen at that place since Monday last, 11 inches. The Willamette has risen here 7 inches within the last 24 hours. A large portion of the lower part of this city is now under water; in many places to the depth of 4 or 5 feet. Front street is flooded as far up as the Pioneer Hotel [the American Exchange now—REP.], and is impassable for teams at the lower end. The upper part of Couch's wharf is nearly, if not quite, covered, and the merchants and traders in that section have been compelled to either ship their goods to higher ground, or remove them to the upper stories or place them upon scaffolds. We notice that the railroad iron *in transitu* for The Dalles and Cascades is being put to good [illegible] Columbia river bottom, from Vancouver to Monticello all others being compelled to abandon their homes for the high lands. Houses, fencing and improvements of every description liable to float or wash away, is fast being destroyed, and many farmers will be seriously, if not totally, ruined financially. The OREGONIAN of the 12th—the day following,—says: "About all the stores and dwellings in the lower part of town, except those situated upon mounds, have been vacated,—the water in many of them being from two to four feet deep on the first floor. Front street from Washington down is now impassable for drays, and in many places impassable for footmen. Scaffolds are built on one side of the street close to the houses, upon which those who are forced to travel down street can make their way along. Many goods and wares in the stores below are now covered with water, while several merchants on Front and First streets, as far up as Alder, are packing their goods upon counters, boxes, barrels, etc., fearing that a few more inches rise will yet come, which will flood their floors. The street commissioner has caused considerable quantities of rock to be hauled and thrown upon the planking in several places to prevent the water from bursting it up and otherwise damaging the streets.

BILLIARD TOURNAMENT RULES.

Messrs. W. J. Leahy, Chas. A. Griswold, Chas F. Speck, M. F. Cunningham and James Lotan, who were appointed a committee on billiards, have prepared and adopted the following rules and regulations, which are to govern the contest for the prize and championship of the State that will take place during Centennial week.

The games to be three ball carom games, 50 points up, to take place at the Masonic Hall, city of Portland, on the 6th and 7th days of July, commencing at 7 o'clock P. M.

The table to be a 5x10 Blake & Brunswick make, patent wire cushions, imported direct from the manufactory for the purpose.

The first prize to be the gold medal awarded by the Centennial committee.

The second and third prizes to be entrance money, the amount of which will be designated after the entries have been made.

Each player shall pay $10 entrance fee for the billiard tournament, to be paid to C. F. Speck, of the committee.

No player shall be allowed to enter or contest for the prizes in the tournament unless he has been a resident of Oregon for six months.

All entries must be made on or before the 25th of June 1876.

The game to be governed by the rules of the American Billiard Congress.

Each player to play a single game with every other player. Tie games, if any, to be played off.

The contestants in each game will be allowed the privilege of selecting their own referee.

Any party contesting for the medal who shall offer to bet any money upon the result of the tournament during the games shall forfeit his entrance money and be ruled out of the tournament.

By order of the Committee governing the Billiard Tournament.

If you have no spare cash to invest in tickets to the Philadelphia Centennial stay at home and enjoy your own. You can see big stocks and buy clothing equally as cheap at Kerr's Emporium, First and Morrison streets. He keeps the best and of the best.

THE TEACHERS' INSTITUTE.

THE DALLES, June 9, 1876.

The Congregational church was comfortably filled last evening to listen to Mr J. J. Browne of your city. The Dalles brass band played several selections with much taste and spirit before the commencement. It is [illegible] to any body, especially the speaker, to have a few sentences culled from a lecture and given to the public whereon to judge the whole. He did his best as have every one on the programme.

Pierce Mays followed with an oration entitled "Labor's Reward." It was very pleasant for the citizens of the Dalles to welcome home a young fellow who was always well thought of. "He is one of our boys, he is."

The exercises of the day were commenced by the subject of arithmetic being again discussed by Prof's Barrett, Rowland, Mr Butcher, Mrs Duniway and Mrs Watson. One person distrusted the whole subject of arithmetic as taught in the schools, and thought there was much to learn from those who braid their hair in a queue.

A composition on "Compositions," by J. W. Pyle followed. Perhaps the most remarkable thing about it was its brevity, considering the number of heads it was divided into.

The afternoon session was opened by a lecture from Mr. Butcher, subject, "History and Geography." True to my determination not to select any passages, I refrain from anything like a resume of his lecture. Mr. Butcher always has the close attention of those whom he addresses in public, Sundays as well as week days.

Mr Simpson's lecture, "A Plea for Free Education," fully repaid the members of the Institute for what trouble they had gone to on its behalf. He thought, perhaps, the good people of the Dalles would appreciate something dry just now, considering the dampness there was in the lower end of town. We did not find it so, he has the manuscript with him, but has left behind very much of the spirit and thought of the lecture.

It is quite beyond my humble powers to give even a faint outline of Miss Clara Humason's essay, which was next on the programme. By those more competent to judge, it was pronounced a finished production. There was modesty and grace in the opening remarks, "It seems best to the committee to have the severe logic and flowing rhetoric of the address we have listened to followed by a school girl's composition."

Troy Shelly, a Wasco county teacher, followed with an essay on "Our Common Schools." The subject was prolific of thought and discussion. The time allowed was only too short for many who wished to be heard on the subject.

The Institute closed its labors this evening with an address from Rev. R. Bentley of your city. Any words of mine about the lecture would be superfluous. The first requisite of success was there, viz: a crowded house. "The band" again came to our relief. It is one of the institutions of The Dalles, and is in excellent practice just now, as we all had a chance to notice to-night. The Reverend gentleman and his audience were on good terms with one another, and the kind manner in which he noticed the slight disturbance caused by a lady teacher trying to soothe her crying child, put him on still better terms with his hearers. Mrs. Bentley's voice was new and fresh, and the solo she sang was well received. Miss Robbins, by special request, repeated her poem, "In Those Days,"—a very pleasant conclusion to a very pleasant evening's entertainment.

The different speakers from abroad, band, singers, trustees of the Congregational church, O. S. N. Co., and citizens of The Dalles, were all remembered by a vote of thanks, and the Fifth Judicial District Teachers' meeting is a thing of the past.

FROM ASTORIA.

Our regular correspondent, under date of the 9th sends the following:

The steamship *John L. Stephens* arrived here to-day noon, and has been busily engaged, up to a late hour this evening, in taking in cargo. Several thousand cases have been put on board from Kinney Bros., Booth & Co., R. D. Hume, and others.

Since yesterday morning we have had almost a continuous rainstorm, and apropos of the weather, Mr. Louis Wilson, the efficient officer in charge of the signal service station at this place, informed your correspondent to-day that the official and reported record shows that since the 1st day of October last a fraction over 99 inches of rain have fallen at this point. Eight feet and a quarter of rainfall in eight months! How is that for rain? No such record has been made before since the station was located here which was 2[illegible] years ago.

We have no reliable returns yet from Tillamook, settling the question as to who is the elected Representative. Heavy bets have been made by Democratic politicians that Williams would have a majority ranging from 60 to 80 over Parker (Rep.), and it is rumored in town that they have been betting on a "dead thing," they having received information before the bets were made as to the state of the polls in that county. Whether this is so or not, this deponent sayeth not, and careth not, having nothing to win or lose either way. If men will bet, they must run chances.

Ned Williams and Andrew Jansen, who have been fishing for Badollet & Co.'s cannery, Upper Astoria, left that place in their boat again to spread their net, on Sunday afternoon last. Up to this time nothing has been seen of either of them and there is little room to doubt that both the unfortunate men have met with a watery grave. News has been received to-day, that a boat belonging to that company has been found bottom up, on Clatsop beach, in close proximity to the Columbia bar. Williams was a Welshman, and last winter worked on the bar tug *C. J. Brenham*. Jansen was a Swede, and formerly lived in your city, and was at one time mate of the W. R. T. Co.'s steamer *Beaver*.

SCHOOL EXAMINATIONS.

The examinations in the public schools will be held as follows to-day:

Nothing like—Lunches at Barnes', Central Market.

For a quiet game of billiards or pool drop in at Peter Wilhelm's Fountain saloon. He keeps things in a cozy, shapely and will treat you in an affable manner. The Virginius pool table at his place is quite popular. Try it, as well as his imported wines, cigars etc.

CORNS AND BUNIONS.

Dr. Halpruner treats corns, bunions, ingrowing nails, etc., at your residence or hotel. He can be advised through the postoffice or seen at his office and residence, corner Eighth and Market streets.

W. L. Adams, M. D., A. M., LL. D., corner of First and Salmon streets, is curing the most inveterate chronic diseases of all kinds at a low price, by medicated electric lightning cream baths, and by combining the German and French with the American improved practice, mixed with a little common sense. His treatment is, in the main, entirely original, and works almost miracles, as his numerous patients will attest. A lady always in the office to assist in treating women.

RETURNED.

Dr. Wightman has again returned to this city, where he can be found at his rooms, northeast corner of Stark and Fourth streets. Remember he makes a specialty of HEMORRHOIDS or PILES and other DISEASES OF THE RECTUM, giving IMMEDIATE RELIEF AND CURING in a very short time, without interfering with the business of the patient. I use no knife, caustic, ligature or any other painful remedies, having treated many cases of twenty and thirty years' standing with entire satisfaction to the parties treated, I have no hesitation in saying SATISFACTION GUARANTEED. Persons at a distance may consult by mail. The "process" sent by express C. O. D. (not by mail). Consultation fee, $2. Postoffice box, 247, Portland, Oregon.

LADIES!—Are you, or do you know of any person suffering from Rheumatism, Toothache, Headache, Ague, or Swelled Face? Any bleeding of the lungs, soreness or ulceration of the throat, or inflammatory pains, external or internal, in any part of the body? Has any accident produced burns, bruises, sprains, wounds, inflammation or hemorrhage? Then resort to POND'S EXTRACT of the Shrub Witch Hazel, the most potent, clean, wholesome pain reliever and healer in the world. This assertion is attested to by every person who has used it. We know of no exceptions. It is not a patent medicine and is endorsed in the medical publications of all schools. Pond's Extract is sold by all first class druggists at 50c, $1 00 and $1 75 per bottle—the largest size much the cheapest. If your druggist does not have it for sale, request him to obtain it for you.

Johnson's Anodyne Liniment may be used to advantage where any liniment is desirable. In cases of severe cramps and pains in the stomach, it is undoubtedly the best article that can be used internally.

Habitual constipation leads to the following results: Inflammation of the kidneys, sick and nervous headache, biliousness, dyspepsia, indigestion, piles, loss of appetite and strength, all of which may be avoided by being regular in your habits, and taking say one of *Parsons' Purgative Pills* nightly for four or six weeks.

OREGON.

Mr Charles Schutz was elected Justice of the Peace and E. Graham, Constable, for Dalles precinct.

Work on the bridge at Eugene has been suspended for the want of lumber, the lumber contractors having failed to come to time.

Mr. J. M. Fraser, County Clerk of Clackamas county, is the first to hand in official returns of the late election. His report was received at the office of the Secretary of State last Friday.

The election in the Dalles passed off very quietly and with the most pleasant feelings, there was no disturbance with the exception of one fight, which came near being of a very serious nature.

The Lafayette *Courier* says: Messrs. Gates, Haines and [illegible] of St. Joe, last week captured some 1,700 trout in three days' fishing on the Nestucca. This may seem like a fish story, but it is true nevertheless.

The People's Protective Alliance of Oregon has reorganized at Astoria and elected officers as follows: President, A. H. Sales, vice president, O. F. Bell, secretary, W. B. Ross, treasurer, J. H. Higgins, sergeant-at-arms, H. A. Cox.

The citizens of Fifteen Mile and vicinity held a meeting in that precinct on election day, and appointed committees for the purpose of making arrangements for having a grand Fourth of July celebration at the Old Camp Ground.

Mr. Warren Johnson, a son of H. A. Johnson, [illegible] of Jefferson, has been appointed blacksmith on the Malheur reservation, and Mr. Mansfield, of Jefferson, carpenter at the same place. They leave for the reservation in about two weeks.

The following, according to the *Messenger*, are candidates for graduating honors at the approaching commencement exercises at Christian College, Monmouth: F. L. Bell, H. Cole, Mildred Bedwell, J. H. Powell, E. A. Murphy, J. Adams, T. P. Ruble.

We are in receipt of the *Oregon Medical Journal*, a quarterly magazine published in Salem by the Marion county Medical Society. Among the contents is a brief history of the Medical Department of the Willamette University, by D. Payton, M. D., which is an interesting article.

As Mr. White was moving his family over to Tillamook last week, when going down the mountain this side of the toll gate, the wagon was upset and rolled over three or four times. Strange to say, nobody was seriously injured, although the whole family, consisting of the wife and five or six children, were in the wagon.

The great annual campmeeting of the Christian denomination is to commence at the camp ground on the La Creole, in the suburbs of Dallas, about the 15th inst. The Society, with the aid of citizens, have moved their campmeeting shed from the former camp ground at Dixie, to the aforesaid place, as it is more central and convenient. The roof covers a space 60x80 feet, with seats for 3,000 people, which are expected during the services.

The Dalles *Mountaineer* learns from a gentleman who arrived on Wednesday evening from Canyon City, that on Friday evening of last week Johnny Ainsley and Charley Atts were on a friendly drunken spree together at that place and that during their "jolly time" they got into a quarrel which caused Atts to strike Ainsley on "the butt of the ear" with his fist, from the effects of which, in the short space of three minutes, he laid down and died.

The *Independent* says: The meadows in Douglas county show an unusual heavy growth of grass this year, and as a consequence the amount of hay put up will be very large. The heavy and continued rains this spring have kept our farmers back somewhat with this part of their usual labors, but when they do commence mowing (which will be in the course of a couple of weeks) they will undoubtedly make hay while the sun shines.

The Oakland *Independent* says: "Three wagons, containing three men, as many women, about thirty children, and followed by sixteen or seventeen very lean and hungry-looking canine specimens, all from Lane county, passed through town yesterday, *en route* for Eastern Oregon. In appearance the men, women and children very much resembled gypsies, and no doubt were so in disposition and temperament, while the dogs appeared dangerous only to sheep owners. The horses would have made good traveling lanterns, if a lighted candle could have been placed inside of them."

The *Democrat* says: Mr. J. B. Sperry arrived at Albany last week on his way home from Heppner, Umatilla county, where he has been for the last month or so engaged in shearing his sheep and marketing the wool. He reports that the wool clip is very large; his band of about 1,500 averaging about 6 pounds per head. The increase in his flock is about 60 per cent. A. M. Frazer, of Umatilla county, has a band of Merino ewes from which he sheared 13,000 pounds of wool, and the increase of lambs in this flock was about 75 per cent. Both of the above named gentlemen brought their wool to Portland, but as the highest price offered in that city was only 13 cents, they shipped it to San Francisco. Mr. S. says that the grass in the Umatilla country is growing magnificently, that wild grass is growing better than for years before, and that if the price of wool and stock was up to its usual standard the people of that county would be very prosperous.

BEFORE GOING TO SLEEP.

Dear Father! all the lovely day
  My hand has lain so warm in Thine
That all along the fire-flowered way,
  My eyes have seen Thy footprints shine.

Follow upon Thy day, sweet night
  When I am opened to Thy heart,
Reminded of that hour whose flight
  Shall make and keep me Thine—apart!

Hold me through all the dim, soft hours—
  Hold me, my Father! close and fast,
As sweetly safe as folded flowers,
  And wake me with Thy smile at last!
—*Howard Glyndon.*

THE TERRITORIES.

The wheat fields in Walla Walla valley are heading out and promise enormous yields.

No less than half a dozen street fights have occurred in Olympia during the past few days

At the Fourth of July celebration at Chehalis station, Geo. N. McConaha is to be orator, and J. H. Naylor, reader.

The grasshopper plague is feared in Montana this season. Crickets are already troublesome in some parts of Idaho.

The exports from the Puget Sound customs district for the last month amounted to $61,-371; number of vessels entered, 41; tonnage, 23,347 36-100; number of vessels cleared, 40, tonnage, 20,986 21-100.

Official reports place the Indian population of Washington Territory at 14,192 persons. Their reservations embrace 6,400.45 square miles, or 4,161,695.38 acres—about one-tenth of the entire area of the Territory.

Seattle has now four policemen to protect its people from robbery and violence, and from present indications will soon have to add to their force. With the advantages of metropolitan success follow the usual evils.

The new ship in process of construction by the Washington Mill Company on Puget Sound, will be considerably larger than the *Wildwood*, and constructed of the best material and with all recent improvements in shipbuilding.

The white miners at the Seattle coal mines have driven off the Chinamen, numbering about 30, who have been working at those mines. At last accounts it was understood to be the intention to take the same course at the Renton and Talbot mines.

The Steilacoom *Express* says: It was rumored among jockeys and horsemen this week that Mr. Westbrook, of this place, has refused $5,000 for his trotter "Olympia Dick." Mrs. Goodtime, of this town, has a trotter for which she has refused $1,200.

The last child of Mr. S. P. Andrews, of Seattle, died last Friday. It was a little boy, about eight months old, and the third child the almost distracted parents have lost within a fortnight—all by diphtheria. There are now twenty-five or thirty patients suffering from this terrible disease in Seattle.

In digging the hole for the cistern, at the corner of Mill and Commercial streets, at Seattle, two or three feet beneath the surface the sawdust was struck, and it came up as soft and fresh as though it had lain there not longer than a month. The gravel and earth on top was as hard as a macadamized road.

Whatcom county, according to the *Mail*, will this year produce 150,000 bushels of grain, most of which will find its way into the San Francisco market. The vessels of the Bellingham Bay Coal Company have entered themselves for the movement of this grain, and they will probably divide it at Sehome with the Pacific Mail Company's steamers at Seattle.

The following is a summary of the business transacted at the land office at Vancouver during the month of May last: Original homestead entries, 21, aggregate acres, 2,022. Final homestead entries 13, aggregate entries 2,077. Declaratory statements 15, aggregate acres 1,538. This is a good exhibit, and shows that the rural population of the country is increasing.

In a late report the Salt Lake grand jury says: "We find that the amount paid by the corporation of Salt Lake City on distilled liquors, during the time mentioned (four years), was $30,000, leaving a balance due the government on such tax of about $30,000, and proving that Salt Lake City, although in those primitive times lacking in many of the arts and appliances of modern civilization, was determined not to be behind her elder sisters in the possession of that profligate luxury, 'crooked whisky.'"

A Goldendale correspondent of the Dalles *Tribune* writes of the Alder creek, Klickitat county, as follows: "The name given it is Alder creek, although the creek is so insignificant that it scarcely deserves the name of creek, and I think the place should be called Summit valley; for it is almost on the top of the Simcoe mountain. I have just traveled through there, and there saw quite an extensive tract of most beautiful agricultural land, which is destined some day to become one vast grain field. At present it is the best stock [illegible] east of the Cascade mountains, and vast herds of cattle and [illegible] graze upon the luxuriant bunch grass and slake their thirst at its beautiful springs of pure cold water.

The Deer Lodge (Montana) *New Northwest* of May 26th says: The rain and snow fall, which lasted in Montana nearly all of last week, was unprecedented in amount in a given [illegible] of time since gum boots succeeded [illegible] and the pale face kept record of elemental events. At Cable, where probably as great a quantity fell as at any habitable point except Trapper City, Mr. Cameron, who was the sole occupant of the camp during several days, estimates the fall of snow was six feet. At times the flakes fell so large, watery and thick that it was unsafe for him to venture out. Two days after the storm subsided Mr. Moss reached Cable and found the settled snow measured three feet six inches on the level. Many trees fifteen to twenty inches in diameter were bent over and uprooted by the snow and fell across the road, while the stronger ones were stripped of their branches, and the destruction of timber was immense.

BRITISH COLUMBIA.

A marble mine has been found at North Saanich. Iron stone of rich quality has also been discovered.

The steamers *Isabel* and *Grappler* sailed from Victoria for Wrangell on Monday evening loaded with freight and passengers.

The water in the Fraser river is unusually high for this time of year. It has reached within a foot of extreme high water mark, but is now falling.

The Lands & Works Office has been notified that the magnificent bridge erected by the late government over Thompson river, at a cost of $18,000, is giving way.

Mr. T. J. Burnes, of the American Hotel, Victoria, has bought the property on which the hotel building and several adjoining buildings stands for $9,300.

The *Colonist* says at the recent camp-meeting at New Westminster two Chinamen sang hymns in the Chinese tongue, and one of them is being educated as a missionary.

The bridge on Silver Creek, below Hope, on the Westminster-Yale road, has been swept away. Like the Quesnel bridge it was built with a pier in the middle of the foaming current, and when high water came it was carried off like a leaf.

Crops are looking well on the Fraser. For the last ten days the weather has been most favorable to vegetation. There will be a large amount of fall wheat sown here this year, owing to the late spring rains, the farmers not having been able to get the ground in order for a spring crop.

Large quantities of American silver, which is subject to a discount below, are being imported to the province for circulation here at par. It is not generally known that this coin is subject to a customs duty of 17½ per cent. But such is the fact, and any person found bringing it into the province without first having paid the duty will lose it by confiscation.

The Crop Prospect.

As the season progresses the crop prospects in this State improve, and it now seems likely that the numerous predictions, of what has never occurred a failure of the wheat crop are to fall to the ground. The editor of the Corvallis *Democrat*, who is situated in the center of the wheat producing section of this valley, in speaking of this matter says:

Never in the history of our country have the farmers been blest with more flattering prospects of an immense yield of cereals than at this time. The continued rains of the past unprecedented winter caused fears that the farmers would be unable to sow much of their ground particularly where it lay flat and low, and the consequence was that wherever new ground could be had, the farmers have broken up and sown large tracts of fresh soil. The spring was not so unfavorable to the sowing of grain as many feared it would be, and most of the old ground was sown though some of it would have been very late for an ordinary season, yet the splendid showers to which we have been treated, together with the cool cloudy weather, has brought even the late sown grain forward, and without any more rain it will all make a fair crop while that sown early and the large amount sown on new ground, promises an immense yield. A much larger area has been sown to wheat and oats than ever before in this county.

The above remarks are probably applicable to the Wallamet valley generally.

VALUABLE LANDS FOR SALE,

690,000 Acres in

EASTERN OREGON!

For Farming and Grazing Purposes.

THESE LANDS ARE SITUATED IN WASCO Grant and Baker counties and are offered for sale in such sized tracts, not less than 160 acres, as purchasers may desire. Here is afforded a most favorable opportunity to immigrants and settlers seeking homes and low priced land to acquire both on the most reasonable terms. These lands are excellent for farming and grazing. On most of the tracts no grubbing, or other preparation of the land for plowing is requisite. A growth of nutricious grass covers the uplands affording the best of pasturage, while in the valleys and bottom lands the grass can be mowed and made into hay. Living springs and streams water the lands in various directions. The uplands, or rolling lands, can be put into crops with the most satisfactory return. Fruit, particularly peaches, plums, grapes, apples, pears and cherries, as well as the smaller fruits, can be grown in great abundance. The climate of Eastern Oregon is very healthful. Flourishing towns are located at convenient points for traffic, the mails are regularly conveyed throughout that section, and a prosperous population is already established, occupied in farming, stock growing, mining, and various other pursuits.

Terms, $1 25 per acre and upwards, according to quality and quantity. Interest ten per cent on deferred payments.

Ordinance No. 1769.

AN ORDINANCE PROVIDING FOR THE TIME and manner of improving that part of A street lying between North Front and North West Park streets

The City of Portland does ordain as follows:

Section 1. The proposed improvement of that part of A street lying between the west line of North Front street and the west line of North West Park street shall be completed as hereinafter provided on or before the fifteenth day of June, 1876.

Section 2. The surface of the street shall be cleared of all plank or other obstructions (sidewalks, crosswalks and plank roadways of the proper width and grade, and otherwise in good condition excepted.) If the obstructions are not removed by the owners of the adjacent Property within three days after notice they shall be removed by and become the property of the contractor.

Section 3. The improvement shall consist of grading, to the established grade, and laying sidewalks crosswalks and planking that portion of the roadway lying between N. Front and N. First and N. First and N. Second streets.

Section 4. The work to be done and materials furnished shall correspond with the provisions of and under the restrictions contained in sections 6, 7, 8, 9, 11 and 12 of Ordinance No. 798 entitled "an Ordinance in relation to the Improvement of streets." Except that the sidewalks shall be six feet in width with curb and two stringers, and that the crosswalks running east and west shall be three feet in width. The plank roadway shall be of four inch plank laid on stringers 4 by 8 inches in such manner as the Street Department may direct.

Section 5. The contractor shall take entire charge of the work during its progress, and shall be responsible for any loss or accident resulting from carelessness or neglect.

Section 6. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Superintendent of Streets.

Section 7. The Committee on Streets and Public Property are hereby authorized to advertise for, receive proposals and enter into contract with the lowest responsible bidder or bidders for the improvement specified in this Ordinance.

Passed the Common Council May 24, 1876.

W. S. CALDWELL,
Auditor and Clerk.

Approved May 26, 1876.
